

Welcome to Module 2: Passwords!

You will be learning about passwords. Specifically about password etiquette and the dangers of using weak passwords. From learning why passwords are important to increasing your password knowledge, by the end of the module you are expected to be an expert on passwords.

Here is the schedule of what you are going to learn in the upcoming lessons.

- Why passwords are important.
- Password etiquette.
- How hackers break passwords.

There are going to be games that must be completed between some lessons. Make sure to memorize the videos to win. At the end there will be a quiz. Get an 80% or above to earn your certificate.
